On January 28 the Club lobby and gallery walls sprang to life with the opening of the *Yunnan – Old Villages and Stone Forests* exhibition. The artist behind these vibrant works, Gregory Burns, addressed an enthusiastic group at what was the Club's most well attended artist lecture. In this exhibition, Greg – who has painted his way from Japan to Pakistan - depicts the architecture and landscape of China. This dramatic series of paintings is inspired by the ancient villages of Yunnan province, and will be displayed in the Club through early May.
